Colibri PXA300 208MHz V1.3A Discontinuation  
 Colibri PXA300 208MHz XT V1.3A Discontinuation

Date of Publication: 2014-10-06

## 1. Toradex Product Numbers Affected

EOL Product		Replacement Product	
Part Number	Product Name	Part Number	Product Name
00041300	Colibri PXA300 208MHz V1.3A		Any other member of the Colibri computer on module product family <sup>note1</sup>
00071300	Colibri PXA300 208MHz XT V1.3A		Any other member of the Colibri computer on module product family <sup>note1</sup>

Note1: For replacements see section '4. Customer Impact'.

## 2. Product Phase Out Schedule

EOL Product	
Part Number	Estimated Schedule
00041300	LTB (Last Time Buy): 2015-03-20 non-cancellable and non-returnable LTS (Last Time Ship): 2017-01-31
00071300	LTB (Last Time Buy): 2015-03-20 non-cancellable and non-returnable LTS (Last Time Ship): 2017-01-31

## 3. Description of Changes

The products mentioned above will be discontinued due to the discontinuation of the Marvell™ PXA300 processor.

## 4. Customer Impact

---

There are various options for replacements of the discontinued Colibri PXA300 modules. The Toradex Colibri computer on module family provides pin compatibility across the entire family range. Migrating from one Colibri module to another is possible with minimal effort when using standard module interfaces. Please refer to the product portfolio for a complete overview of the Colibri module family and all module variants:

<https://www.toradex.com/products/colibri-arm-computer-modules>

Please also refer to the Colibri Design and Migration Guide for a comparison of standard interfaces across all Colibri modules and detailed information to support easy migration between module variants:

<http://developer.toradex.com/hardware-resources/arm-family/module-migration/migration-guide>

Transitioning to another Colibri PXA module would obviously require the least migration effort. However, for a long term solution (10 years+) we recommend evaluation of the newer Colibri modules such as the Colibri VF50/VF61, Colibri T20/T30, and Colibri iMX6. The Toradex support team will be happy to assist you in finding the best migration solution for your project.
