## 3. Description of Changes

From 01351100 Iris V1.1A to 01351101 Iris V1.1B:

- Changed micro SD card holder from Amphenol 101-00581-59 to Würth 693071010811. The new device is functionally fully compatible. The micro SD card holder was changed due to quality issues seen on the old component.

## 4. Customer Impact

### 4.1. Hardware Design

- The new micro SD card holder from Würth used on Iris V1.1B is slightly higher (1.83mm) than the one from Amphenol (1.72mm) used on Iris V1.1A. The other outline dimensions are exactly the same for both card holders. We don't expect any impact on customer hardware or housing designs.

### 4.2. Software

- This change has no impact on software.
