

Public Customer Information: 0034 Apalis TK1 2GB RoHS Compliance

Part Number	Product Name
00341000	Apalis TK1 2GB V1.0A
00341001	Apalis TK1 2GB V1.0B
00341100	Apalis TK1 2GB V1.1A
00341200	Apalis TK1 2GB V1.2A

Toradex only sells products which are compliant to the RoHS 2 Directive (2011/65/EU and (EU) 2015/863; aka RoHS 3).

Our product 0034 Apalis TK1 2GB claims RoHS exemptions 15 and 15(a), which will expire soon. Thus your end product might become non-compliant depending on its EEE (electrical and electronic equipment) category as found in Annex I of the RoHS 2 Directive.

We thus strongly recommend you to check RoHS compliance requirements applicable to your end product in detail. If needed you may migrate to an alternative Apalis SoM, as they are pin-compatible.

The following expiration dates of RoHS exemptions 15 and 15(a) apply for the European market:

- **July 21, 2021:** for categories 1 to 7, category 8 (other than in vitro diagnostic medical devices), category 9 (other than industrial monitoring and control instruments), and category 10;
- **July 21, 2023:** for category 8 only in vitro diagnostic medical devices;
- **July 21, 2024:** for category 9 only industrial monitoring and control instruments, and category 11

You can find these expiration dates for RoHS exemptions 15 and 15(a) also on the Internet.

Since 0034 Apalis TK1 2GB as a stand-alone product falls into category 11 **we will continue to sell 0034 Apalis TK1 2GB until July 21, 2024.**

Outside of the European market, the RoHS exemptions may not be relevant.

Hence, please check carefully the applicable RoHS requirements of your sales market.
