

Product Change Notification (PCN): 0034 Apalis TK1 2GB EOL

Date of publication: 11 Jan 2022

Table of Contents

- 1. Affected Product Numbers
- 2. Product Phase in / Phase-out Schedule
- 3. Discontinuation Details
- 4. Contact

1. Affected Product Numbers

End of Life Product		Replacement Product
Part Number	Product Name	
00341200	Apalis TK1 2GB V1.2A	The Apalis TK1 product group will be discontinued (EOL). For a direct replacement, Toradex recommends any member of the Apalis iMX8 product group or a transition to the Verdin family.

2. Product Phase in / Phase-out Schedule

End of Life Product	
Part Number	Estimated Schedule
00341200	LTB (Last Time Buy): 2022-04-15 non-cancellable and non-returnable, subject to availability of raw materials LTS (Last Time Ship): April 2023

3. Discontinuation Details

Components discontinuation and non-availability force us to discontinue the product 0034xxxx Apalis TK1 2GB. The main reason is the discontinuation of the power management companion chip for the Nvidia TK1 SoC from AMS (Osram) AS3722-BCTT-13 which was announced by end of November 2021.

Toradex recommends switching to a product of the [Apalis iMX8](#) product group or migrating to the [Verdin](#) family. Changing to the Apalis iMX8 product group requires less effort due to the compatible pinout of the Apalis standard pins. Note, there is type-specific functionality that isn't compatible between the Apalis TK1 and other Apalis product groups. Please check the migration options in your setup in detail.
