

# California Proposition 65 Compliance Statement

## California Proposition 65 Compliance Statement

Toradex is committed to providing transparent information regarding California's Proposition 65, the Safe Drinking Water and Toxic Enforcement Act.

### Overview of Proposition 65:

California's Proposition 65 requires businesses to issue "clear and reasonable" warnings to Californians about potential exposures to chemicals known by the State of California to cause cancer, birth defects, or reproductive harm. These chemicals can be present in products, homes, workplaces, or the environment. Proposition 65 also prohibits the deliberate discharge of such chemicals into California's drinking water sources. For additional information about Proposition 65, please visit the following websites:

- <https://www.p65warnings.ca.gov>
- <https://oehha.ca.gov/proposition-65>

### Toradex Position:

Our company's products are designed with the utmost consideration for safety. Our products are not intended to expose individuals to any chemicals on the Proposition 65 list during regular use. Therefore, the "clear and reasonable" warnings required by Proposition 65 do not apply to our products. As a result, our products do not feature warnings specifically related to Proposition 65 or the chemicals listed.

We regularly review our product content through third party software and certifications from our suppliers. This helps us determine whether any of our products may contain chemicals listed under Proposition 65.

We continue to take diligent steps to obtain accurate information. This ensures our material content information is up-to-date and compliant with evolving requirements. While we make every effort to ensure product safety, we recommend that you review Proposition 65 regulations to determine the appropriate methods for the design and engineering of your own products and compliance requirements related to Proposition 65.
